

ABA Therapy - Play Space

Are you interested in a weekly ABA therapy play space for your child? We are looking for expressions of interest in an ABA group for children aged 0-6.

This group will teach early social and play skills through developmentally appropriate activities. The program focuses will be on:

- Eye contact
- Imitation
- Peer interaction
- Turn taking
- Practicing routines
- Attending skills
- Following directions

About The Program

- Uses the principles of ABA
- Small groups (3:1 ratio) delivered by highly trained staff
- 2 hour sessions
- Good practice for children leading up to pre-school
- Interactive curriculum eg. Fine motor, gross motor skills

Register your expression of interest now by
